**May 2018 to July 2018**

- Worked as a Trainee Software Developer in Torrent Infotech, Gorakhpur.

**Madan Mohan Malaviya University Of Technology, Gorakhpur Dec. 2018 to May 2019**

- Worked as a Trainee Software Developer at Madan Mohan Malaviya University of Technology, Gorakhpur.

## PROJECTS

**PROJECT-01 (ATTENDANCE MANAGEMENT SYSTEM, MMMUT, GORAKHPUR)**

**Dec. 2018 to May 2019**

**Specification-**

**Team Size-** 02

**Technology Used-** Asp.Net, C#, SQL Server Management Studio

**Project Summary-** An Attendance management portal of the Madan Mohan Malaviya University Of Technology, Gorakhpur, containing four major modules built on the .NET framework using C#. The Project provides various facilities to the Faculties like marking attendance online instead of using pen and paper, uploading the results, displaying messages, etc. Students can also check their attendance by signing into their dashboard.

**Roles & Responsibilities-**

- Designed and Developed two modules of the Project.
- Provided system maintenance and support procedures for log file updates, database tables, and stored procedures.
- Integrated software components into a fully functional software system.
- Collected various data regarding the project.
- Performed troubleshoot to identify software performance issues.

**PROJECT 02- ONLINE TEACHER CONSULTANCY (TUTORZDOOR) WEBSITE**

**May 2018 to July 2018**

**Specification-**

**Team Size-** 02

**Technology Used-** Asp.Net, C#, SQL Server Management Studio

**Project Summary-** A website constructed with the .NET framework using C# which provides home tutors on a click. The project has three modules. The website deals with the difficulties of finding the perfect home tutor for various classes. By visiting on this website Parents can find the desired tutor for their children with so much ease.

**Roles & Responsibilities-**

- Studied some surveys on the Home tuition scenario.
- Collected some raw data across the city in which the software was developed.
- Performed Manual testing on each module of the project to find the bugs.
- Performed troubleshoot to identify software performance issues.

**PROJECT 03- (MINI PROJECT) G WAVE STUDIO (RECORDING STUDIO) WEBSITE**

**Aug. 2017 to Nov. 2017**

**Project Specification-Team Size-** 04, **Technology Used-** Asp.Net, C#, SQL Server Management Studio

**Project Summary-** A fully functional and user-friendly website constructed with the .Net framework using C#. Mainly works with three modules. If someone is planning to record their song then instead of going to the studio for booking the recording slot, they can visit the website and can easily book their slot.

**Roles & Responsibilities-**

- Performed manual testing on a module of the project to find the bugs.
- Designed the User Interface.

## SKILLS

**SOFTWARE:** MS Office, Adobe Photo Shop, Adobe AfterEffect
