Project work

Title　　　　　:　　Website development for flora in college campus

Duration　　　:　　3 Months

Summary　　　:　　The project has been developed to know the detailed information about plants. The process comprises of these steps. User has to scan the particular QR code of the plant using scanning application. When we scan the code of the plant it will redirect us to the page where it consists of the option such as browse, copy, share, etc.,

The browse option will take us to the webpage where it consists of details regarding plants. The information of the plant such as family name, binomial name, etc., will be displayed. The description about plant will be stored in college website only by the authenticated person using their login id.

Extra-Curricular Activities:

- **Completed 30 days Internship training at SAP Industries, Coimbatore** and implemented a Project entitled '***ERP on Production Industry***' using **SQL database** system.
- Attended **Workshop** on,
  i) '*Basics of molecular Modelling and Simulation of Biomolecules*' at Karunya Institute of Technology and Science, Coimbatore
  ii) '*Bio-Informatics*' at PSGR Krishnammal Arts and Science College, Coimbatore
- Attended **National level Seminar** on, '*Computer Genomics Tools for Next Generation Sequencing and Bio Medical data Analysis*', at Bharathiar University, Coimbatore
- Active member of **Youth Red Cross** Club, in which I provided my service in *awareness programs* like, '*Swachh bharat*' and '*A day against Drug abuse and Illicit trafficking*'
